Extract from the Proceedings of the Right Hon'ble the Governor General of India in Council, in the Home Department, No. 373, under date the 13th January 1863.

RESOLUTION.—In Clause 6 of the " Rules for Grants-in-aid " it is provided that " no Grant will in any case exceed in amount the sum expended on the Institution from private sources.

2. Expenditure from *schooling fees* has not hitherto been uniformly recognized as part of the expenditure from private sources to which reference is made in this Rule. In 1858 it was indeed ordered by the Government of India that Schooling fees should *not* be taken into account. The Secretary of State, however, having expressed an opinion that, in respect of Vernacular Schools, at all events, it would be sufficient to require that the amount of local contributions from *all sources* should equal the Government Grant, such a relaxation of the original practice has been since allowed in many instances, and occasionally in the case of Anglo-Vernacular Schools, as well as purely Vernacular Schools; and in March 1862, with reference to the proposed establishment of a School at Lahore for Christian children, the Punjab Government was expressly authorized to give its support by a " Grant-in-aid to the fullest extent allowed by the Rules, i. e., a monthly allowance equal to amount of subscriptions and schooling fees." It appears to the Governor General in Council inexpedient to refuse to recognize the fees paid by the parents of the children who frequent a School as part of the amount ' expended on the Institution from private sources,' entitling the School to a Grant-in-aid. The tendency of such a Rule must obviously be to induce the Managers of private Schools to make the schooling fee as nearly nominal as possible, and to take from the parents of the children whatever additional amount may be required under the name of subscriptions. No advantage, but, on the contrary, great evil is to be looked for from compelling recourse to such contrivances; and the Governor General in Council is therefore pleased to resolve that for the future, in respect of all Schools aided by a Grant from the public revenues, " the sum expended on the Institution from private sources " shall be held to include private contributions from all sources, schooling fees included. But in laying down this Rule it seems desirable to observe that it should by no means be assumed that to every School applying for a Grant-in-aid a Grant *equal* to the sum expended on the Institution from private sources is invariably, and as a matter of course, to be given. The Rule states that no Grant shall in any case exceed the sum so expended, and it is the duty of the Educational Officers to examine carefully into the circumstances of each case, and to recommend such an amount, as a Grant-in-aid, not exceeding and not necessarily equal to the amount expended from private sources, as may seem proper.

Government of Bengal.

LEGISLATIVE DEPARTMENT.

THE following Act of the Lieutenant-Governor of Bengal in Council received the assent of His Honor on the 14th January 1864, and having been assented to by His Excellency the Governor General on the 10th February 1864, is hereby promulgated for general information :—

ACT No. I OF 1864.

An Act for regulating Hackney Carriages and Palankeens in the Town and Suburbs of Calcutta.

WHEREAS it is expedient to regulate Hackney Carriages and Palankeens in the Town and Suburbs of Calcutta ; It is enacted as follows :—

I. Clause 3, Section XXIII of Act XXI of 1857 (to make better provision for the order and good Government of the Suburbs of Calcutta and the Station of Howrah), and Clauses 8 and 9, Section XIX of Act XI.VIII of 1860 (for regulating the Police of the Towns of Calcutta, Madras, and Bombay), shall be of no effect in the Town and Suburbs of Calcutta as regards the drivers of Hackney Carriages under this Act.

II. Every Hackney Carriage, within the Town and Suburbs of Calcutta, shall be annually registered and licensed by a Registering Officer, who shall be appointed for the purpose by the Government, and who shall keep a Register in which he shall on registration enter every Hackney Carriage under either the First, the Second, or the Third Class.

III. No Carriages shall be registered under the First Class except Carriages which belong to Coach Builders, Hotel-keepers, or Livery Stable-keepers, and do not ply for hire on the public streets.

IV. The owner of any Carriage who is desirous of registering it as a Hackney Carriage must apply to the Registering Officer stating the Class in which he desires that the

Carriage may be registered ; and he shall submit the Carriage for the inspection of the Registering Officer at such convenient time and place as the said Officer shall appoint. The Registering Officer shall, on examination of the

Application may be granted or refused. Carriage, decide whether the Carriage is fit to be registered in the Class applied for, and shall accordingly either register it in that Class, or refuse to grant the application.

V. The following particulars shall be entered in the Register :—

1st.—The Class and the number assigned to the Carriage in the Register.

2nd.—The name and residence of the owner of the Carriage.

3rd.—The number of Horses to be employed in drawing such Carriage.

4th.—The number of persons the Carriage is licensed to carry.

VI. The registration shall take place annually upon such day in each year as the Registering Officer shall

appoint : but any person wishing within the year to use as a Hackney Carriage, a Carriage not so in use on the last preceding day of annual registration, may have such Carriage registered on application to the Officer aforesaid. When any registered Carriage is transferred within the year, it shall be registered anew in the name of the person to whom it has been transferred. The person in whose name any Carriage is registered under this Act for the time being, shall be deemed the owner of such Carriage for the purposes of this Act.

VII. A fee of three Rupees shall be paid for each registration of a Carriage of the First Class, and a fee of two Rupees for each registration of a Carriage of the Second or Third Class

under this Act ; and on any Carriage being registered in the Second or Third Class, the Registering Officer shall provide for such Carriage a plate bearing the Class, and the number of such Carriage in the Register, and the number of persons it is licensed to carry, and shall cause such plate to be affixed in such

conspicuous part outside of such Carriage as shall to the said Registering Officer seem proper.

VIII. The owner of any Carriage registered either in the Second or in the Third Class, who shall allow such Carriage to be let or used for hire without having a proper plate duly affixed to such Carriage, as required by the preceding Section, shall be liable to a penalty not exceeding fifty Rupees.

IX. Whoever keeps, or is the proprietor of, any Carriage required by this Act to be registered, and shall omit to have the same so registered, shall be liable to a fine not exceeding one hundred Rupees. Any Police Officer may seize and remove to a Police Station such Carriage together with the Horse drawing the same. If the Carriage, so seized, be not claimed, and if any fine imposed be not paid within ten days, such Carriage, together with the Horse seized with it, may be sold by auction, and the proceeds applied to the payment of the fine and all costs and charges incurred on account of the detention and sale, and the surplus (if any), if not claimed by the owner within a further period of twenty days, shall be forfeited to the Government.

X. The Registering Officer may cancel the registration of any Carriage under this Act, whenever it shall appear to him that such Carriage, or any Horse or Harness used with such Carriage, is unfit for public use, due regard being had to the Class in which such Carriage may have been registered.

XI. As often as any registered owner of a Carriage registered under this Act shall change his residence, he shall give notice thereof in writing signed by him to the said Registering Officer, specifying in such notice his new residence.

Every registered owner who shall change his residence and shall neglect for one week to give notice of such change, shall be liable to a penalty not exceeding twenty Rupees.

XII. Upon the expiration of the period for which any Carriage may have been registered under this Act, the owner thereof shall cause the plate of such Carriage, affixed under Section VII of this Act, to be delivered to the said Registering Officer; and any person who, after the expiration of the period aforesaid, shall wilfully neglect for three days to deliver the plate to the said Officer, and every person who shall use or detain any plate affixed in respect of a registration which is no longer in force, shall, for every such offence, be liable to a penalty not exceeding one hundred Rupees. Every person who shall for the purpose of deception use or have any plate resembling or intended to resemble any plate affixed under this Act shall, for every such offence, be liable to a penalty not exceeding two hundred Rupees. It shall be lawful for the Registering Officer, or for any person employed by him for that purpose, to prosecute any person so neglecting to deliver up a plate, at any time within twelve calendar months after the expiration of the registration in respect of which such plate was

affixed; and it shall be lawful for any Police Officer, or any person employed for that purpose by the Registering Officer, to seize and take away any such plate, or any plate used for the purpose of deception as aforesaid, wheresoever the same may be found, and to deliver the same to the Registering Officer.

XIII. Whenever the writing on any plate shall become obliterated, or defaced, so that the same shall not be distinctly legible, and also whenever any plate shall be proved to the satisfaction of the Registering Officer to have been lost or mislaid, the owner of the carriage in which such plate was affixed shall deliver such plate (if he shall have the same in his possession) to the Registering Officer, and shall be entitled to have a new plate affixed upon payment of such sum of money, not exceeding three Rupees, as the Registering Officer shall from time to time appoint. FIXED LIGHT AT ENTRANCE TO GRAND PORT.

THE Government of the Mauritius has given notice that, on and after the 1st day of March 1864, a light will be exhibited from a Lighthouse recently erected on Isle aux Fouquets on the edge of the reef, at half a mile north of the southern entrance of Grand Port, on the east coast of the island of Mauritius.

The light will be a *fixed* white light, placed at an elevation of 108 feet above the mean level of the sea, and should be seen in clear weather from a distance of 16 miles.

The illuminating apparatus is dioptric or by lenses of the first order.

The tower from base to vane is 84 feet high, and as well as the adjacent buildings is white. It marks the southern entrance to Grand Port, and stands about 4½ cables E. N. E. of Isle Passe, and 3 miles from the coast of Mauritius, in lat. 20° 24' 20" N., long. 57° 45' 9" east of Greenwich.

DIRECTIONS.—A Government Pilot in a few months will be stationed at the Lighthouse, and will board vessels bound to Grand Port on their making the usual signals. Vessels bound to Grand Port may approach the light when bearing from N. by E. round by north to W. by S.; and when about 2 miles from it should heave to for the Pilot with the vessel's head off shore.

Should it be desired to get shelter approach the light under easy sail till at about three-quarters of a mile from it, avoiding the shoal patch of 6 fathoms water off Laverdis point, the extreme of the coral reef bounding the south side of entrance to Grand Port, then steer so as to round Isle Passe at the distance of half a mile as a spit runs out from its south side for about a cable's length; when haul to the northward and anchor in 18 to 20 fathoms water. It is not recommended to attempt to enter without a Pilot, except in cases of extreme necessity.

A vessel from the southward bound to Port Louis round the north end of the island of Mauritius, (the usual track,) should, after sighting Grand Port light, steer so as to pass it at a distance of about 4 miles; when at that distance, with the light bearing W. by S., a N. N. E. ½ E. course for 9 miles, if the weather be clear, will bring a vessel in sight of Flat Island *revolving* light, bearing about N by W. ½ W., the course can then be shaped as required.

A vessel from the northward having Flat Island light on a N. N. W. bearing should be careful, after sighting Grand Port light, not to bring it, when at a distance of less than 8 miles, on a more southerly bearing than S. W. by W. ½ W., or she will be too near the coast reef northward of the light.

The coast reef bounding Grand Port is bordered by a bank of irregular soundings extending some distance seaward; the lead, if carefully attended to, will prove a tolerable guide in thick weather.

Vessels bound into Grand Port should not approach it at night, but should heave to well southward of the light as the drift is to the northward, and much time will be lost in working back. Isle Passe on the north side of the entrance is easily known by the battery and other buildings on it. At times the rollers block the channel, although the depth is from 14 to 22 fathoms;

and generally the reefs on either side are perfectly visible from aloft. The rise of tide is 3 feet. [All Bearings are Magnetic. Variation 9° 25' West in 1863.]

The light is on the *revolving* principle, shewing successively *two* white lights and *one* red light at intervals of *twenty seconds*. It is elevated 223 feet above the level of high water, and should be seen in clear weather from a distance of 24 miles.

The illuminating apparatus is dioptric or by lenses of the first order.

The tower is round, 154 feet high, built of stone, and stands in lat. 48° 27' 34" N., long. 5° 7' 52" west of Greenwich.

WEST COAST OF FRANCE.

REVOLVING LIGHT AT CONTIS.

Also, that on and after the 20th day of December 1863, a light would be exhibited from a Lighthouse recently erected at Contis, in the department of Landes on the west coast of France.

The light is a *revolving* white light, attaining its greatest brilliancy every *half minute*. It is elevated 164 feet above the level of high water, and should be seen in clear weather from a distance of 24 miles.

The illuminating apparatus is dioptric or by lenses of the first order.

The tower is round, 125 feet high, and stands on the downs of Contis, in lat. 44° 5' 45" N., long. 1° 19' 25" west of Greenwich.
